Subject index

A

- Abuse potential of halazepam and of diazepam in patients recently treated for acute alcohol withdrawal (Jaffe et al), 623
 of zomepirac (Johnson et al), 386
 Acetaminophen metabolism and elimination, effects of oral contraceptive steroids on (Mitchell et al), 48
 in subjects fed charcoal-broiled beef (Anderson et al), 368

- Acid glycoprotein, α_1 , albumin, and human plasma, stereoselective binding of propranolol to (Walle et al), 718
 secretion, gastric, basal and pentagastrin-stimulated, effect of verapamil on (Levine et al), 399
 Acromegalic and hyperprolactinemic subjects, effects of ibopamine on serum prolactin and growth hormone levels in (Ferrari et al), 74
 Action, tripamide, sites of (Brater and Anderson), 79
 Adrenergic receptor binding, α_2 , in human platelets: Alterations during menstrual cycle (Jones et al), 90

- Adrenoceptor blockade, α - and β -, in hypertension, on the combination of (Stokes et al), 576
- mediated vasoconstriction, α_2 , of arteries (Kiowski et al), 565
- Age, erythrocyte cation transport and, effects of digoxin and furosemide (Kelly et al), 159
- related morphine kinetics (Owen et al), 364
- Aged patients, furosemide kinetics and dynamics in (Kerremans et al), 181
- Aggregation, platelet, and thromboxane A_2 generation, influence of propranolol and 4-hydroxypropranolol on (Mehta et al), 559
- Albumin, human plasma and α_1 -acid glycoprotein, stereoselective binding of propranolol to (Walle et al), 718
- Alcohol withdrawal, acute, nonpharmacologic intervention (Naranjo et al), 214
- simplified treatment of, diazepam loading (Sellers et al), 822
- Alcoholic cirrhosis, patients with, hemodynamic effects of dobutamine in (Mikulic et al), 56
- liver disease, ibuprofen and sulindac kinetics in (Juhl et al), 104
- Alinidine in angina (Meinertz et al), 770
- Allopurinol and 6-mercaptopurine, interaction of, inhibition of first-pass metabolism in cancer chemotherapy (Zimm et al), 810
- Ambulatory peritoneal dialysis, chronic, moxalactam kinetics during (Singlas et al), 403
- continuous tobramycin kinetics during (Bunke et al), 110
- American Society for Clinical Pharmacology and Therapeutics, notes of, 418, 558
- Amiloride, effects of, on plasma and total body potassium, blood pressure, and the renin-angiotensin-aldosterone system in thiazide-treated hypertensive patients (Svensen et al), 448
- Amines and their metabolites, excretion of, by two patients in hepatic coma treated with L-dopa (Tyce et al), 390
- Amitriptyline metabolism: Relationship to polymorphic debrisoquine hydroxylation (Mellström et al), 516
- Amobarbital metabolism, variation in, evaluation of a simplified population study (Tang et al), 202
- Amphotericin B, elimination of, in impaired renal function (Morgan et al), 248
- Ampicillin and cephalixin in renal insufficiency (Hori et al), 792
- Amrinone, dose proportionality of (Edelson et al), 190
- Analgesia, codeine and aspirin, in postpartum uterine cramps, qualitative aspects of quantitative assessments (Bloomfield et al), 488
- metkephamid and meperidine, after episiotomy (Bloomfield et al), 240
- Analgesic studies, several, analysis of, and experts' opinions, evaluation of current clinical trial methodology in analgesimetry based on (Sriwatanakul et al), 277
- Analgesimetry based on experts' opinions and analysis of several analgesic studies, current clinical trial methodology in, evaluation of (Sriwatanakul et al), 277
- Analog scales, visual, studies with different types of, for measurement of pain (Sriwatanakul et al), 234
- Angina, alinidine in (Meinertz et al), 770
- Antagonist, β - and α -adrenoceptor, kinetics of medroloalol (Haegele et al), 785
- Antiarrhythmic plasma-concentration range of imipramine against ventricular premature depolarizations (Giardina et al), 284
- Anticoagulant action and concentration of heparin, relationship between, effect of pregnancy on (Whitfield et al), 23
- Anticonvulsant medication, vitamin K-dependent proteins and (Keith et al), 529
- Antihypertensive effect of clonidine in essential hypertension, naloxone does not antagonize (Rogers and Cubeddu), 68
- efficacy of selective β blockers, predictability of (Volpe et al), 758
- new, tiadazosin, effects of, hemodynamics and clinical variables (Vardan et al), 290
- Area/dose relationships, free and total, pharmacokinetics of ibuprofen in man, I. (Lockwood et al), 97
- Arithmetic, mental, and isometric exercise, hemodynamic effects of, in hypertension treated with selective and nonselective β -blockade (Houben et al), 164
- Arrhythmias, cardiac, after abrupt clonidine withdrawal (Peters et al), 435
- refractory ventricular, mexiletine in (Fenster and Kern), 777
- Arterial mitomycin, hepatic, by starch microspheres, improved regional selectivity of (Gyves et al), 259
- Arteries, vasoconstriction of, α_2 adrenoceptor-mediated (Kiowski et al), 565
- Arylamines and bladder cancer causality: Application of conceptual and operational criteria (Lower), 129
- Aspirin and codeine analgesia in postpartum uterine cramps, qualitative aspects of quantitative assessments (Bloomfield et al), 488
- ibuprofen, zomepirac, and placebo in the relief of postepisiotomy pain (Sunshine et al), 254
- and salsalate, availability of salicylate from (Dromgoole et al), 539
- Assessment, standardized, of suspected adverse drug reactions, reasons for disagreement in (Hutchinson et al), 421
- Azosemide kinetics and dynamics (Brater et al), 454

B

- Basal and pentagastrin-stimulated gastric acid secretion, effect of verapamil on (Levine et al), 399
- Benzodiazepine hypnotics, five, kinetics of, in healthy subjects (Jochemsen et al), 42
- Betaxolol hydrochloride (USAN list No. 238), 125
- Binding, stereoselective, of propranolol to human plasma α_1 -acid glycoprotein and albumin (Walle et al), 718
- in vitro, of diazepam and *N*-desmethyldiazepam to maternal and fetal plasma proteins at birth, differences in, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
- Birth, differences in in vitro binding of diazepam and *N*-desmethyldiazepam to maternal and fetal plasma proteins at, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
- Bladder cancer causality, arylamines and, application of conceptual and operational criteria (Lower), 129
- Blockade, α - and β -adrenoceptor, combination of in hypertension (Stokes et al), 576
- β , nonselective and β_1 -selective; hemodynamics and humoral effects of coffee after (Smits et al), 153
- β , selective and nonselective, hypertension treated with, hemodynamic effects of isometric exercise and mental arithmetic in (Houben et al), 164
- and stimulation, nonselective β -receptor, and left ventricular function (Leenen et al), 570
- Blocker(s), β_1 , selective, predictability of antihypertensive efficacy of (Volpe et al), 758
- beta, ultra-short-acting, esmolol, kinetics of, and of its metabolite (Sum et al), 427
- Blood flow, hepatic, effect of food on, implications in the "food effect" phenomenon (Svensson et al), 316
- pressure, plasma and total body potassium, and the renin-angiotensin-aldosterone system in thiazide-treated hypertensive patients, effect of amiloride on (Svensson et al), 448
- Books received, 420
- Breath carbon monoxide, cigarette consumption and, after one year, low nicotine cigarettes (Kanzler et al), 408
- Bumetanide, effect of, and renal tubular secretion, coupling between (Odland et al), 805
- and furosemide (Brater et al), 207
- Busulfan kinetics (Ehrsson et al), 86

C

- Caffeine, effects of, on cigarette smoking and subjective response (Chait and Griffiths), 612

- Cancer, bladder, causality, arylamines and, application of conceptual and operational criteria (Lower), 129
- chemotherapy, inhibition of first-pass metabolism in, interaction of 6-mercaptopurine and allopurinol (Zimm et al), 810
- Cannabinoids, urinary excretion of, passive inhalation of marijuana smoke and (Perez-Reyes et al), 36
- Carbon monoxide, breath, cigarette consumption and, after one year, low nicotine cigarettes (Kanzler et al), 408
- Cardiac arrhythmias after abrupt clonidine withdrawal (Peters et al), 435
- and hormonal effects of enalapril in hypertension (Morioka et al), 583
- patients, hepatic extraction of isosorbide dinitrate in (Morrison et al), 724
- patients of various ages, plasma levels, protein binding, and elimination data of lidocaine and active metabolites in (Drayer et al), 14
- Cardioinactive-reduced metabolites, decreased digoxin, after administration as an encapsulated liquid concentrate (Rund et al), 738
- Cardioselectivity of prenalator and isoproterenol (Jennings et al), 749
- Catecholamines, plasma, and heart rate, effects of hydralazine and sodium nitroprusside on (Lin et al), 474
- and norepinephrine clearance, effects of ethanol on (Eisenhofer et al), 143
- response of, to intravenous labetalol, a comparison with sodium nitroprusside (Lin et al), 466
- Cation transport, erythrocyte, and age, effects of digoxin and furosemide (Kelly et al), 159
- Cefetamet (USAN List No. 240), 416
- Cefotetan (USAN List No. 240), 417
- disodium (USAN List No. 240), 417
- Cephalexin and ampicillin in renal insufficiency (Hori et al), 792
- Charcoal-broiled beef, acetaminophen metabolism in subjects fed (Anderson et al), 368
- Chemotherapy, cancer, inhibition of first-pass metabolism in, interaction of 6-mercaptopurine and allopurinol (Zimm et al), 810
- Chlormethiazole or indocyanine green disposition, ranitidine does not affect (Mashford et al), 231
- Chloroquine elimination, dose-dependent, of a single oral dose, on the question of (Gustafsson et al), 383
- Cigarette(s), low-nicotine, cigarette consumption and breath carbon monoxide after one year (Kanzler et al), 408
- smoking and subjective response, effects of caffeine on (Chait and Griffiths), 612

Cimetidine impairs nitrazepam clearance (Ochs et al), 227
 kinetics, altered, hepatic encephalopathy and (Ziemniak et al), 375
 Cirrhosis, alcoholic, patients with, hemodynamic effects of dobutamine in (Mikulic et al), 56
 Cisapride (USAN List No. 240), 416
 Clearance, nitrazepam, cimetidine impairs (Ochs et al), 227
 norepinephrine, and plasma catecholamines, effects of ethanol on (Eisenhofer et al), 143
 Clinical trial, early, clovoxamine kinetics in (Hurst et al), 266
 methodology, current, evaluation of, in analgesimetry based on experts' opinions and analysis of several analgesic studies (Sriwatanakul et al), 277
 variables and hemodynamics, effects of tiadazosin, a new antihypertensive (Vardan et al), 290
 Clonidine, antihypertensive effect in essential hypertension, naloxone does not antagonize (Rogers and Cubeddu), 68
 levels, plasma, in hypertension (Velasquez et al), 341
 in patients with diabetes and mild hypertension (Guthrie et al), 713
 withdrawal, abrupt, cardiac arrhythmias after (Peters et al), 435
 Clovoxamine kinetics in an early clinical trial (Hurst et al), 266
 Codeine and aspirin analgesia in postpartum uterine cramps: Qualitative aspects of quantitative assessments (Bloomfield et al), 488
 Coffee, hemodynamic and humoral effects of, after β -selective and nonselective β -blockade (Smits et al), 153
 Coma, hepatic, treated with L-dopa, excretion of amines and their metabolites by two patients in (Tyce et al), 390
 Concentration and anticoagulant action of heparin, relationship between, effect of pregnancy on (Whitfield et al), 23
 -effect relationships in healthy subjects, triazolam (Baktir et al), 195
 free fatty acid, and other parameters, relation to differences in in vitro binding of diazepam and N-desmethyldiazepam to maternal and fetal plasma proteins at birth (Kuhn and Nau), 220
 Congestive heart failure, tocainide kinetics in (Mohiuddin et al), 596
 Consumption, cigarette, and breath carbon monoxide after one year, low nicotine cigarettes (Kanzler et al), 408
 Coronary heart disease, exercise training in, perhexiline during (Teo et al), 744
 Cotinine disposition and effects (Benowitz et al), 604

Coupling between renal tubular secretion and effect of bumetanide (Odland et al), 805
 Cramps, postpartum uterine, codeine and aspirin analgesia in, qualitative aspects of quantitative assessments (Bloomfield et al), 488
 Criteria, conceptual and operational, application of, arylamines and bladder cancer causality (Lower), 129
 Cycle, menstrual, alterations during, α , adrenergic receptor binding in human platelets (Jones et al), 90

D

Debrisoquin metabolizers, extensive and poor, differential stereoselective metabolism of metoprolol in (Lennard et al), 732
 Debrisoquine hydroxylation, polymorphic, relationship to, amitriptyline metabolism (Mellström et al), 516
 Delta-9-tetrahydrocannabinol in men and women, metabolism, disposition, and kinetics of (Wall et al), 352
 Depolarizations, ventricular premature, antiarrhythmic plasma-concentration range of imipramine against (Giardina et al), 284
 N-Desmethyldiazepam and diazepam, differences in in vitro binding of, to maternal and fetal plasma proteins at birth, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
 Diabetes and mild hypertension, clonidine in patients with (Guthrie et al), 713
 Dialysis, chronic ambulatory peritoneal, moxalactam kinetics during (Singlas et al), 403
 peritoneal, continuous ambulatory, tobramycin kinetics during (Bunke et al), 110
 Diazepam and N-desmethyldiazepam, differences in in vitro binding of, to maternal and fetal plasma proteins at birth, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
 and halazepam, abuse potential of, in patients recently treated for acute alcohol withdrawal (Jaffe et al), 623
 loading: Simplified treatment of alcohol withdrawal (Sellers et al), 822
 Differential stereoselective metabolism of metoprolol in extensive and poor debrisoquin metabolizers (Lennard et al), 732
 Digitoxin and digoxin, erythrocyte uptake of, influence of serum proteins on (Goncalves), 347
 Digoxin cardioinactive-reduced metabolites, decreased, after administration as an encapsulated liquid concentrate (Rund et al), 738
 clearance, renal, and plasma digoxin concentration, effects of physical activity and immobilization on (Pedersen et al), 303

Digoxin—cont'd

- concentration, plasma, and renal digoxin clearance, effects of physical activity and immobilization on (Pedersen et al), 303
- and digitoxin, erythrocyte uptake of, influence of serum proteins on (Goncalves et al), 347
- and disopyramide, interaction between (Risler et al), 176
- and furosemide, effects of, erythrocyte cation transport and age (Kelly et al), 159
- kinetics and intraerythrocytic sodium concentration, verapamil-induced changes in (Pedersen et al), 8
- Dihydroergotamine in postoperative ileus (Thorup et al), 54
- Disopyramide and digoxin, interaction between (Risler et al), 176
 - kinetics in renal impairment: Determinants of interindividual variability (Burk and Peters), 331
- Disposition, chlormethiazole or indocyanine green, ranitidine does not affect (Mashford et al), 231
 - and effects, cotinine (Benowitz et al), 604
 - metabolism, and kinetics of delta-9-tetrahydrocannabinol in men and women (Wall et al), 352
- Diuretic in hypertension, lofexidine with a, hemodynamic effect of (Vlachakis et al), 764
- Divalproex, twice-daily dosing of valproate with (Wilder et al), 501
- Dobutamine in patients with alcoholic cirrhosis, hemodynamic effects of (Mikulic et al), 56
- Dose(s) and alternative reinforcers, effects of, oral methadone self-administration (Stitzer et al), 29
 - dependent chloroquine elimination of a single oral dose, on the question of (Gustafsson et al), 383
 - elimination of a single oral, dose-dependent chloroquine, on the question of (Gustafsson et al), 383
 - proportionality of amrinone (Edelson et al), 190
 - single, enprofylline kinetics in healthy subjects after (Borga et al), 799
- Dosing schedules, propranolol, dynamics of (Coelho et al), 441
- Drug efficacy, postmarketing studies of, when must they be randomized? (Strom et al), 1
 - reactions, adverse, standardized assessment of suspected, reasons for disagreement in (Hutchinson et al), 421
- Dynamics and kinetics in aged patients, furosemide (Kerremans et al), 181
 - of propranolol dosing schedules (Coelho et al), 441

E

- Ectopy, ventricular, mexiletine and quinidine in (Fenster and Hanson), 136
- Edetol (USAN list No. 238), 125
- Elimination of amphotericin B in impaired renal function (Morgan et al), 248
 - data, plasma levels, and protein binding of lidocaine and active metabolites in cardiac patients of various ages (Drayer et al), 14
 - and metabolism, acetaminophen, effects of oral contraceptive steroids on (Mitchell et al), 48
 - of a single oral dose, dose-dependent chloroquine, on the question of (Gustafsson et al), 383
- Enalapril in hypertension, cardiac and hormonal effects of (Morioka et al), 583
 - in low-resin essential hypertension (Wilkins et al), 297
- Encephalopathy, hepatic, and altered cimetidine kinetics (Ziemniak et al), 375
- Enprofylline kinetics in healthy subjects after single doses (Borga et al), 799
- Enzyme induction patterns, hepatic, and phenothiazine side effects (Wright et al), 533
 - random urine samples an indicator of, 6 β -hydroxycortisol in (Saenger), 818
- Episiotomy, metkephamid and meperidine analgesia after (Bloomfield et al), 240
- Erythrocyte cation transport and age: Effects of digoxin and furosemide (Kelly et al), 159
 - thiol methyltransferase activity, human, heritability of, thiol methylation pharmacogenetics (Keith et al), 521
 - uptake of digoxin and digitoxin, influence of serum proteins on (Goncalves et al), 347
- Esmolol, kinetics of, an ultra-short-acting beta blocker, and of its metabolite (Sum et al), 427
- Essential hypertension, low-renin, enalapril in (Wilkins et al), 297
 - naloxone does not antagonize the antihypertensive effect of clonidine in (Rogers and Cubeddu), 68
- Ethanol, effects of, on plasma catecholamines and norepinephrine clearance (Eisenhofer et al), 143
- Excretion of amines and their metabolites by two patients in hepatic coma treated with L-dopa (Tyce et al), 390
 - urinary, of cannabinoids, passive inhalation of marijuana smoke and (Perez-Reyes et al), 36
- Exercise, isometric, and mental arithmetic, hemodynamic effects of, in hypertension treated with selective and nonselective β -blockade (Houben et al), 164
 - training in coronary heart disease, perhexiline during (Teo et al), 744
- Extraction, hepatic, of isosorbide dinitrate in cardiac patients (Morrison et al), 724

F

- Fatty acid, free, concentration and other parameters, differences in in vitro binding of diazepam and *N*-desmethyldiazepam to maternal and fetal plasma proteins at birth (Kuhn and Nau), 220
- Fenoldopam, a new oral renal vasodilator (Stote et al), 309
- Fetal and maternal plasma proteins at birth, differences in in vitro binding of diazepam and *N*-desmethyldiazepam to, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
- Food, effect of, on hepatic blood flow, implications in the "food effect" phenomenon (Svensson et al), 316
 - phenomenon, implications in the, effect of food on hepatic blood flow (Svensson et al), 316
- Free fatty acid concentration and other parameters, differences in in vitro binding of diazepam and *N*-desmethyldiazepam to maternal and fetal plasma proteins at birth (Kuhn and Nau), 220
 - and total area/dose relationships, pharmacokinetics of ibuprofen in man, I. (Lockwood et al), 97
- Function, left ventricular, nonselective β -receptor stimulation and blockade and (Leenen et al), 570
- Furosemide and bumetanide (Brater et al), 207
 - and digoxin, effects of, erythrocyte cation transport and age (Kelly et al), 159
 - kinetics and dynamics in aged patients (Kerremans et al), 181
 - in normal subjects, effects of phenobarbital and tobacco smoking on (Lambert et al), 170
 - in normotensive and hypertensive subjects, responses to (Wilson), 590

G

- Generation, thromboxane A_2 , platelet aggregation and, influence of propranolol and 4-hydroxypropranolol on (Mehta et al), 559
- Geriatric group, theophylline kinetics in (Fox et al), 60
- Group, geriatric, theophylline kinetics in (Fox et al), 60
- Growth hormone and serum prolactin levels in hyperprolactinemic and acromegalic subjects, effects of ibopamine (Ferrari et al), 74

H

- Halazepam and diazepam, abuse potential of, in patients recently treated for acute alcohol withdrawal (Jaffe et al), 623

- Heart failure, congestive, tocainide kinetics in (Mohiuddin et al), 596
 - rate and plasma catecholamines, effects of hydralazine and sodium nitroprusside on (Lin et al), 474
- Hemodynamic(s) and clinical variables, effects of tiodazosin, a new antihypertensive (Vardan et al), 290
 - effect(s) of dobutamine in patients with alcoholic cirrhosis (Mikulic et al), 56
 - of isometric exercise and mental arithmetic in hypertension treated with selective and nonselective β -blockade (Houben et al), 164
 - of lofexidine with a diuretic in hypertension (Vlachakis et al), 764
 - and humoral effects of coffee after β_1 -selective and nonselective β -blockade (Smits et al), 153
- Heparin, relationship between concentration and anticoagulant action of, effect of pregnancy on (Whitfield et al), 23
- Hepatic arterial mitomycin, improved regional selectivity of, by starch microspheres (Gyves et al), 259
 - blood flow, effect of food on, implications in the "food effect" phenomenon (Svensson et al), 316
 - coma treated with L-dopa, excretion of amines and their metabolites by two patients in (Tyce et al), 390
 - encephalopathy and altered cimetidine kinetics (Ziemniak et al), 375
 - enzyme induction patterns and phenothiazine side effects (Wright et al), 533
 - extraction of isosorbide dinitrate in cardiac patients (Morrison et al), 724
- Hormonal and cardiac effects of enalapril in hypertension (Morioka et al), 583
- Hormone, growth, and serum prolactin levels in hyperprolactinemic and acromegalic subjects, effects of ibopamine on (Ferrari et al), 74
- Humoral effects, hemodynamic and, of coffee after β_1 -selective and nonselective β -blockade (Smits et al), 153
- Hydralazine kinetics, effect of intravenous dose, after administration (Ludden et al), 148
 - and sodium nitroprusside, effects of, on plasma catecholamines and heart rate (Lin et al), 474
- Hydroxycortisol, 6 β -, in random urine samples as an indicator of enzyme induction (Saenger), 818
- Hydroxylation, polymorphic debrisoquine, relationship to, amitriptyline metabolism (Mellström et al), 516
- 4-Hydroxypropranolol, propranolol and, influence of, on platelet aggregation and thromboxane A_2 generation (Mehta et al), 559

- Hyperprolactinemic and acromegalic subjects, effects of ibopamine on serum prolactin and growth hormone levels in (Ferrari et al), 74
- Hypertension, combination of α - and β -adrenoceptor blockade in (Stokes et al), 576
- enalapril in, cardiac and hormonal effects of (Morioka et al), 583
- essential, naloxone does not antagonize the antihypertensive effect of clonidine in (Rogers and Cubeddu), 68
- lofexidine with a diuretic in, hemodynamic effect of (Vlackakis et al), 764
- low-renin essential, enalapril in (Wilkins et al), 297
- mild, and diabetes, clonidine in patients with (Guthrie et al), 713
- plasma clonidine levels in (Velasquez et al), 341
- treated with selective and nonselective β -blockade, hemodynamic effects of isometric exercise and mental arithmetic in (Houben et al), 164
- Hypertensive and normotensive subjects, responses to furosemide in (Wilson), 590
- patients, thiazide-treated, effects of amiloride on plasma and total body potassium, blood pressure, and the renin-angiotensin-aldosterone system in (Svensen et al), 448
- Hypnotics, five benzodiazepine, in healthy subjects, kinetics of (Jochemsen et al), 42
- I*
- Ibopamine, effects of, on serum prolactin and growth hormone levels in hyperprolactinemic and acromegalic subjects (Ferrari et al), 74
- Ibuprofen in man, pharmacokinetics in, free and total area/dose relationships, I. (Lockwood et al), 97
- and sulindac kinetics in alcoholic liver disease (Juhl et al), 104
- zomepirac, aspirin, and placebo in the relief of postepisiotomy pain (Sunshine et al), 254
- Ileus, postoperative, dihydroergotamine in (Thorup et al), 54
- Imipramine, antiarrhythmic plasma-concentration range of, against ventricular premature depolarizations (Giardina et al), 284
- Immobilization and physical activity, effects of, on plasma digoxin concentration and renal digoxin clearance (Pedersen et al), 303
- Indocyanine green or chlormethiazole disposition, ranitidine does not affect (Mashford et al), 231
- Inhalation, passive, of marihuana smoke and urinary excretion of cannabinoids (Perez-Reyes et al), 36
- Inhibition of first-pass metabolism in cancer chemotherapy: Interaction of 6-mercaptopurine and allopurinol (Zimm et al), 810
- Insulin, human (USAN list No. 238), 126
- Interaction between digoxin and disopyramide (Risler et al), 176
- Intraerythrocytic sodium concentration, and digoxin kinetics, verapamil-induced changes in (Pedersen et al), 8
- Intravenous dose, effect of, on hydralazine kinetics after administration (Ludden et al), 148
- Isometric exercise and mental arithmetic, hemodynamic effects of, in hypertension treated with selective and nonselective β -blockade (Houben et al), 164
- Isoproterenol and prenalatorol, cardioselectivity of (Jennings et al), 749
- Isosorbide dinitrate in cardiac patients, hepatic extraction of (Morrison et al), 724
- K*
- Kinetics, disposition, metabolism of delta-9-tetrahydrocannabinol in men and women (Wall et al), 352
- and dynamics in aged patients, furosemide (Kerremans et al), 181
- and effect in psoriatic patients, 8-methoxypsoralen, intraindividual and interindividual variability (Herfst and De Wolff), 117
- of esmolol, an ultra-short-acting beta blocker, and of its metabolite (Sum et al), 427
- of five benzodiazepine hypnotics in healthy subjects (Jochemsen et al), 42
- of medroxlol, a β - and α -adrenoceptor antagonist (Haegele et al), 785
- L*
- Labetalol, intravenous, response of plasma catecholamines to, a comparison with sodium nitroprusside (Lin et al), 466
- L-Dopa, two patients in hepatic coma treated with, excretion of amines and their metabolites by (Tyce et al), 390
- Lidocaine and active metabolites in cardiac patients of various ages, plasma levels, protein binding, and elimination data of (Drayer et al), 14
- Liquid concentrate, encapsulated, decreased digoxin cardioinactive-reduced metabolites after administration as an (Rund et al), 738
- Liver disease, alcoholic, ibuprofen and sulindac kinetics in (Juhl et al), 104
- Loading, diazepam, simplified treatment of alcohol withdrawal (Sellers et al), 822
- Lofexidine with a diuretic in hypertension, hemodynamic effect of (Vlachakis et al), 764
- Lorazepam and its withdrawal, effects of, on sleep, performance, and subjective state (Walsh et al), 496
- Lorzafone (USAN list No. 238), 125
- M*
- Marihuana smoke, passive inhalation of, and urinary excretion of cannabinoids (Perez-Reyes et al), 36

Maternal and fetal plasma proteins at birth, differences in *in vitro* binding of diazepam and *N*-desmethyldiazepam to, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220

Measurement of pain, studies with different types of visual analog scales for (Sriwatanakul et al), 234

Medication, anticonvulsant, vitamin K-dependent proteins and (Keith et al), 529

Medroxyalol, kinetics of, a β - and α -adrenoceptor antagonist (Haegele et al), 785

Menstrual cycle, alterations during, α_2 adrenergic receptor binding in human platelets (Jones et al), 90

Mental arithmetic and isometric exercise, hemodynamic effects of, in hypertension treated with selective and nonselective β -blockade (Houben et al), 164

Meperidine and metkephamid analgesia after episiotomy (Bloomfield et al), 240

6-Mercaptopurine and allopurinol, interaction of, inhibition of first-pass metabolism in cancer chemotherapy (Zimm et al), 810

Metabolic disposition, theobromine kinetics and (Tarka et al), 546

Metabolism, acetaminophen, in subjects fed charcoal-broiled beef (Anderson et al), 368

amobarbital, variation in, evaluation of a simplified population study (Tang et al), 202

disposition, and kinetics of delta-9-tetrahydrocannabinol in men and women (Wall et al), 352

and elimination, acetaminophen, effects of oral contraceptive steroids on (Mitchell et al), 48

of metoprolol, differential stereoselective, in extensive and poor debrisoquin metabolizers (Lennard et al), 732

Metabolite(s), amines and their, excretion of, by two patients in hepatic coma treated with L-dopa (Tyce et al), 390

decreased digoxin cardiotoxicity-reduced, after administration of an encapsulated liquid concentrate (Rund et al), 738

kinetics of esmolol and, an ultra-short-acting (Sum et al), 427

Metabolizers, debrisoquin, extensive and poor, differential stereoselective metabolism of (Lennard et al), 732

Methadone, oral, self-administration: Effects of dose and alternative reinforcers (Stitzer et al), 29

8-Methoxypsoralen kinetics and effect in psoriatic patients, intraindividual and interindividual variability (Herfst and De Wolff), 117

Methylation pharmacogenetics, thiol, heritability of human erythrocyte thiol methyltransferase activity (Keith et al), 521

Methyltransferase activity, thiol, heritability of human erythrocyte, thiol methylation pharmacogenetics (Keith et al), 521

Metkephamid and meperidine analgesia after episiotomy (Bloomfield et al), 240

Metoprolol, differential stereoselective metabolism of, in extensive and poor debrisoquin metabolizers (Lennard et al), 732

Metronidazole, single- and multiple-dose kinetics (Jensen and Gugler), 481

Mexiletine and quinidine in ventricular ectopy (Fenster and Hanson), 136

in refractory ventricular arrhythmias (Fenster and Kern), 777

Microspheres, starch, improved regional selectivity of hepatic arterial mitomycin by (Gyves et al), 259

Midazolam kinetics in women of two age groups (Avram et al), 505

Mitomycin, hepatic arterial, by starch microspheres, improved regional selectivity of (Gyves et al), 259

Morphine kinetics, age-related (Owen et al), 364

Moxalactam kinetics during chronic ambulatory peritoneal dialysis (Singlas et al), 403

N

Naloxone does not antagonize the antihypertensive effect of clonidine in essential hypertension (Rogers and Cubeddu), 68

Nicotine cigarettes, low, cigarette consumption and breath carbon monoxide after one year (Kanzler et al), 408

Nitrazepam clearance, cimetidine impairs (Ochs et al), 227

Nonpharmacologic intervention in acute alcohol withdrawal (Naranjo et al), 214

Norepinephrine clearance and plasma catecholamines, effects of ethanol on (Eisenhofer et al), 143

Normotensive and hypertensive subjects, responses to furosemide in (Wilson), 590

O

Oral contraceptive steroids, effects of, on acetaminophen metabolism and elimination (Mitchell et al), 48

methadone self-administration: Effects of dose and alternative reinforcers (Stitzer et al), 29

renal vasodilator, new, fenoldopam (Stote et al), 309

Oxidation polymorphism, influence of, on phenformin kinetics and dynamics (Gates et al), 827

P

Pain, measurement of, studies with different types of visual analog scales for (Sriwatanakul et al), 234

postepisiotomy, relief of, ibuprofen zomepirac, aspirin, and placebo in (Sunshine et al), 254

- Patterns, hepatic enzyme induction, and phenothiazine side effects (Wright et al), 533
- Pentagastrin-stimulated and basal gastric acid secretion, effect of verapamil on (Levine et al), 399
- Performance, sleep, and subjective state, effects of lorazepam and its withdrawal on (Walsh et al), 496
- Perhexiline during exercise training in coronary heart disease (Teo et al), 744
- Peritoneal dialysis, chronic ambulatory, moxalactam kinetics during (Singlas et al), 403
- continuous ambulatory, tobramycin kinetics during (Bunke et al), 110
- Pharmacogenetics, thiol methylation, heritability of human erythrocyte thiol methyltransferase activity (Keith et al), 521
- Pharmacokinetics of ibuprofen in man. I. Free and total area/dose relationships (Lockwood et al), 97
- Phenformin kinetics and dynamics, influence of oxidation polymorphism on (Oates et al), 827
- Phenobarbital and tobacco smoking, effects of, on furosemide kinetics and dynamics in normal subjects (Lambert et al), 170
- Phenothiazine side effects, hepatic enzyme induction patterns and (Wright et al), 533
- Physical activity and immobilization, effects of, on plasma digoxin concentration and renal digoxin clearance (Pedersen et al), 303
- Piretanide, effects of, in normal subjects (Brater et al), 324
- Placebo, ibuprofen, zomepirac, and aspirin, in the relief of postepisiotomy pain (Sunshine et al), 254
- Plasma catecholamines and heart rate, effects of hydralazine and sodium nitroprusside (Lin et al), 474
- and norepinephrine clearance, effects of ethanol on (Eisenhofer et al), 143
- response of, to intravenous labetalol, a comparison with sodium nitroprusside (Lin et al), 466
- clonidine levels in hypertension (Velasquez et al), 341
- concentration range, antiarrhythmic, of imipramine against ventricular premature depolarizations (Giardina et al), 284
- digoxin concentration and renal digoxin clearance, effects of physical activity and immobilization on (Pedersen et al), 303
- human, α_1 -acid glycoprotein and albumin, stereoselective binding of propranolol to (Walle et al), 718
- levels, protein binding, and elimination data of lidocaine and active metabolites in cardiac patients of various ages (Drayer et al), 14
- Plasma—cont'd
- proteins, maternal and fetal, at birth, differences in *in vitro* binding of diazepam and *N*-desmethyldiazepam to, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
- Platelet(s) aggregation and thromboxane A_2 generation, influence of propranolol and 4-hydroxypropranolol on (Mehta et al), 559
- human, α_2 adrenergic receptor binding in, alterations during menstrual cycle (Jones et al), 90
- Polymorphic debrisoquine hydroxylation, relationship to, amitriptyline metabolism (Mellström et al), 516
- Polymorphism, oxidation, influence of, on phenformin kinetics and dynamics (Oates et al), 827
- Population study, simplified, evaluation of, variation in amobarbital metabolism (Tang et al), 202
- Postepisiotomy pain, relief of, ibuprofen, zomepirac, aspirin, and placebo in (Sunshine et al), 254
- Postmarketing studies of drug efficacy: When must they be randomized? (Strom et al), 1
- Postoperative ileus, dihydroergotamine in (Thorup et al), 54
- Postpartum uterine cramps, codeine and aspirin analgesia, qualitative aspects of quantitative assessments (Bloomfield et al), 488
- Potassium, plasma and total body, blood pressure, and the renin-angiotensin-aldosterone system in thiazide-treated hypertensive patients, effects of amiloride on (Svendsen et al), 448
- Pregnancy, effect of, on the relationship between concentration and anticoagulant action of heparin (Whitfield et al), 23
- Premature depolarizations, ventricular, antiarrhythmic plasma-concentration range of imipramine against (Giardina et al), 284
- Prenalterol and isoproterenol, cardioselectivity of (Jennings et al), 749
- Prolactin, serum and growth hormone levels in hyperprolactinemic and acromegalic subjects, effects of ibopamine on (Ferrari et al), 74
- Propranolol dosing schedules, dynamics of (Coelho et al), 441
- and 4-hydroxypropranolol, influence of, on platelet aggregation and thromboxane A_2 generation (Mehta et al), 559
- stereoselective binding of, to human plasma, α_1 -acid glycoprotein and albumin (Walle et al), 718

- Protein(s) binding, plasma levels, and elimination data of lidocaine and active metabolites in cardiac patients of various ages (Drayer et al), 14
- plasma, maternal and fetal, at birth, differences in in vitro binding diazepam and *N*-des-methyldiazepam to, relation to free fatty acid concentration and other parameters (Kuhn and Nau), 220
- serum, influence of, on erythrocyte uptake of digoxin and digitoxin (Goncalves), 347
- vitamin K-dependent, and anticonvulsant medication (Keith et al), 529
- Psoriatic patients, intraindividual and interindividual variability in 8-methoxypsoralen kinetics and effect in (Herfst and De Wolff), 117

Q

- Quinidine and mexiletine in ventricular ectopy (Fenster and Hanson), 136

R

- Ranitidine does not affect chlormethiazole or indocyanine green disposition (Mashford et al), 231
- Receptor, β -, stimulation and blockade, nonselective, and left ventricular function (Leenen et al), 570
- Refractory ventricular arrhythmias, mexiletine in (Fenster and Kern), 777
- Reinforcers, alternative, effects of dose and, oral methadone self-administration (Stitzer et al), 29
- Relief of postepistomy pain, ibuprofen, zomepirac, aspirin, and placebo in (Sunshine et al), 254
- Renal digoxin clearance and plasma digoxin concentration, effects of physical activity and immobilization on (Pedersen et al), 303
- function, impaired, elimination of amphotericin B in (Morgan et al), 248
- impairment, disopyramide kinetics in, determinants of interindividual variability (Burk and Peters), 331
- insufficiency, cephalixin and ampicillin in (Hori et al), 792
- tubular secretion and effect of bumetanide, coupling between (Odlind et al), 805
- vasodilator, oral, new, fenoldopam (Stote et al), 309
- Renin-angiotensin-aldosterone system, blood pressure, and plasma and total body potassium, in thiazide-treated hypertensive patients, effect of alimuride on (Svendsen et al), 448

S

- Salicylate, availability of, from salsalate and aspirin (Dromgoole et al), 539
- Salsalate and aspirin, availability of salicylate from (Dromgoole et al), 539
- Scales, visual analog, studies with different types of, for measurement of pain (Sriwatanakul et al), 234
- Secretion, gastric acid, basal and pentagastrin-stimulated effect of verapamil on (Levine et al), 399
- Selective, β_1 -, and nonselective β -blockade, hemodynamic and humoral effects of coffee after (Smits et al), 153
- Serum prolactin and growth hormone levels in hyperprolactinemic and acromegalic subjects, effects of ibopamine on (Ferrari et al), 74
- proteins, influence of, on erythrocyte uptake of digoxin and digitoxin (Goncalves), 347
- Side effects, phenothiazine, hepatic enzyme induction patterns and (Wright et al), 533
- Single- and multiple-dose metronidazole kinetics (Jensen and Gugler), 481
- Sites of action of tripamide (Brater and Anderson), 79
- Sleep, performance, and subjective state, effects of lorazepam and its withdrawal on (Walsh et al), 496
- Smoke, marihuana, passive inhalation of, and urinary excretion of cannabinoids (Perez-Reyes et al), 36
- Smoking, cigarette, and subjective response, effects of caffeine on (Chait and Griffiths), 612
- tobacco, and phenobarbital, effects of, on furosemide kinetics and dynamics in normal subjects (Lambert et al), 170
- Sodium concentration, intraerythrocytic, and digoxin kinetics, verapamil-induced changes in (Pedersen et al), 8
- nitroprusside, a comparison with, response of plasma catecholamines to intravenous labetalol (Lin et al), 466
- and hydralazine, effects of, on plasma catecholamines and heart rate (Lin et al), 474
- Starch microspheres, improved regional selectivity of hepatic arterial mitomycin by (Gyves et al), 259
- Stereoselective binding of propranolol to human plasma α_1 -acid glycoprotein and albumin (Walle et al), 718
- metabolism, differential, of metoprolol in extensive and poor debrisoquin metabolizers (Lennard et al), 732
- Steroids, oral contraceptive, effects of, on acetaminophen metabolism and elimination (Mitchell et al), 48
- Stimulation and blockade, nonselective β -receptor, and left ventricular function (Leenen et al), 570

- Subjective response and cigarette smoking, effects of caffeine on (Chait and Griffiths), 612
state, performance, and sleep, effects of lorazepam and its withdrawal on (Walsh et al), 496
Sulindac and ibuprofen kinetics in alcoholic liver disease (Juhl et al), 104

T

- Theobromine kinetics and metabolic disposition (Tarka et al), 546
Theophylline kinetics in a geriatric group (Fox et al), 60
Thiazide-treated hypertensive patients, effects of amiloride on plasma and total body potassium, blood pressure, and the renin-angiotensin-aldosterone system in (Svendsen et al), 448
Thiol methylation pharmacogenetics: Heritability of human erythrocyte thiol methyltransferase activity (Keith et al), 521
Thromboxane A₂ generation, platelet aggregation and, influence of propranolol and 4-hydroxypropranolol on (Mehta et al), 559
Tiodazosin, effects of, a new antihypertensive, hemodynamics and clinical variables (Vardan et al), 290
Tobacco smoking and phenobarbital, effects of, on furosemide kinetics and dynamics in normal subjects (Lambert et al), 170
Tobramycin kinetics during continuous ambulatory peritoneal dialysis (Bunke et al), 110
Tocainide kinetics in congestive heart failure (Mohiuddin et al), 596
Tomoxetine hydrochloride (USAN List No. 240), 416
Transport, erythrocyte cation, and age, effects of digoxin and furosemide (Kelly et al), 159
Triazolam concentration-effect relationships in healthy subjects (Baktir et al), 195
Triprimide, sites of action of (Brater and Anderson), 79

U

- Urinary excretion of cannabinoids, passive inhalation of marihuana smoke and (Perez-Reyes et al), 36
Urine samples, random, 6 β -hydroxycortisol in, as an indicator of enzyme induction (Saenger), 818

- Uterine cramps, postpartum, codeine and aspirin analgesia in, qualitative aspects of quantitative assessments (Bloomfield et al), 488

V

- Valproate, twice-daily dosing of, with divalproex (Wilder et al), 501
Variability, determinants of interindividual, disopyramide kinetics in renal impairment (Burk and Peters), 331
intraindividual and interindividual, in 8-methoxypsoralen kinetics and effect in psoriatic patients (Herfst and De Wolff), 117
Variation in amobarbital metabolism: Evaluation of a simplified population study (Tang et al), 202
Vasoconstriction of arteries, α_2 adrenoceptor-mediated (Kiowski et al), 565
Vasodilator, a new oral renal, fenoldopam (Stote et al), 309
Ventricular arrhythmias, refractory, mexiletine in (Fenster and Kern), 777
ectopy, mexiletine and quinidine in (Fenster and Hanson), 136
function, left, nonselective β -receptor stimulation and blockade and (Leenen et al), 570
premature depolarizations, antiarrhythmic plasma-concentration range of imipramine against (Giardina et al), 284
Verapamil, effect of, on basal and pentagastrin-stimulated gastric acid secretion (Levine et al), 399
induced changes in digoxin kinetics and intracellular sodium concentration (Pedersen et al), 8
Vitamin K-dependent proteins and anticonvulsant medication (Keith et al), 529

W

- Withdrawal, alcohol, acute, nonpharmacologic intervention in (Naranjo et al), 214
clonidine, abrupt, cardiac arrhythmias after (Peters et al), 435
Women of two age groups, midazolam kinetics in (Avram et al), 505

Z

- Zomepirac, abuse potential of (Johnson et al), 386
aspirin, ibuprofen, and placebo in the relief of post-episiotomy pain (Sunshine et al), 254
